

ST-PRO-DCF

BLACK ACRYLIC GLASS REAR PROJECTION SCREEN

REAR PROJECTION SCREEN

ST-Pro-DCF is a special optical rear projector hard foil with only 0.8 mm thickness. This projection screen is dark grey tinted for highest contrast, brilliant colors and provide high resolution images with any projector.

This projector screen offers perfect black even in bright environments. One surface matt and resistant against cleaner and UV-light. Ideally for Video-Transfer and high resolution projections.

BETTER IMAGE QUALITY

Absolutely pure image quality without any structure or sparkling. This diffusion type screen is hot-spot-free with broad viewing angle. The image is created inside the screen and enabled strong contrast and very sharp projections.

3D ready with polarized light.
